Date: (26 Aug, 2024)

### **Bangkok Bank Practices Green Finance and Assists Hozon New Energy Automobile Sustainable Financing Framework Received “Excellent” Rating Verified by the ESG Special Committee**

Recently, green finance has become an international consensus and a new trend in development. Bangkok Bank actively participates in and promotes the development of green finance, committed to integrating environmental protection and social responsibility into financial business and investment, closely focusing on the needs of high-quality development, and supporting sustainable development.

Bangkok Bank assisted China's new energy vehicle manufacturing force, Neta Auto, in further deepening its presence in the ASEAN market, supporting the export of Neta Auto vehicles or their components, as well as the production and assembly of new energy vehicles locally in Thailand. During this process, Bangkok Bank provided comprehensive green financial services for Hozon New Energy Automobile. Recently, Jiran Carbon View (Beijing) Technology Co., Ltd. (“Jiran”) conducted an evaluation and the ESG Special Committee of the China Enterprise Evaluation Association provided dual certification for the second-party opinion results issued by Jiran. After evaluation, Hozon New Energy Automobile’s sustainable financing framework score fell within the range of “80-100” and has received an “Excellent” rating.

Through this cooperation, Bangkok Bank not only helps Neta Auto accelerate its internationalization process and enhance the competitiveness of Chinese automotive companies in the ASEAN market, but also brings positive social and environmental impacts to Thailand. Bangkok Bank will continue to implement its green finance strategy, vigorously support the sustainable development of the environment and society, and provide strong support for economic and industrial transformation and upgrading.
